UNIVERSITY

CLUVEX Calls for Moderators –

Opportunity for work training and credits

The University of Helsinki coordinates EU ERASMUS+ virtual exchange projects: the Climate University for Virtual Exchange, CLUVEX (2023-2027), part of Climate University (University of Helsinki). CLUVEX organize interactive and remote workshops of one week length on Climate Change and Sustainability Sciences topics for students from European and Eastern European universities (Finland, Denmark, Ukraine, Armenia).

First CLUVEX workshop virtual week is in October 14-18, 2024

During CLUVEX workshop will be joint sessions with 500 students from all partner's universities, and networking and interactions in small groups of 10 students with one moderator each.

Moderators' central role is to support and motivate the international and interdisciplinary interactions, discussions, and learning in the small 10-students groups ONLINE.

The virtual exchanges organized by the University of Helsinki are currently the largest EU virtual exchange project in their field and offer a unique opportunity to learn about remote working and teaching in an international environment, and for e.g. doing training work at Master's of Teaching or on English language.

After training as a moderator:

- you can get the necessary credits from the University of Helsinki (3-5 ECT)
- you will get an internship certificate related to your studies.
- you get to try pedagogy / language skills in a national small group.
- you will learn technical remote working and interaction skills that you will need when you move into working life.
- you will increase your network with the organizing universities.
- you can have a unique experience that broadens your world view.

Moderator Training events (1h each)

TR1 - CLUVEX concept & tech.skills

8 May at 14:00-15:00 EET/Helsinki time

TR2 - Climate University MOOCs

14 May at 14.00-15:00 EET/Helsinki time

TR3 - Soft skills

27 May at 14:00-15:00 EET/Helsinki time

TR4 - CLUVEX handbooks & materials

June / early Sep

TR5 - CLUVEX Group Exercise Climate Utopia"

June / early Sep
