

International Eurasian Academy of Sciences (IEAS) meeting

ACTIVITIES AND PROSPECTS OF IEAS CHINA

Chenghu Zhou, PhD & Prof.

Vice President, IEAS China

December 7, 2021, Helsinki, Finland

221 members of IEAS China

1 General about IEAS China

IEAS CHINA was founded in 1996 with the approval by IEAS headquarter and Ministry of Science and Technology of China (MOST).

International Eurasian Academy of Sciences, IEAS (CHINA)

Many distinguishes experts are our academicians

About one third of them are concurrently members of Chinese Academy of Sciences (CAS) and Chinese Academy of Engineering (CAE) and other international or national academies. Many of them have made significant scientific achievements and outstanding contributions to social and economic development, and thus earned great reputation and honors in the national and international scientific communities. For examples, Chen Fangyun, pioneer of China's first atomic bombs, missile and satellite projects, Liu Dongsheng and Sun Jiadong, both winners of state top science and technology awards. And many outstanding academicians who have been serving as presidents in China's most renowned institutions, namely Song Jian, former President of CAE, Lu Yongxiang, former President of CAS, Li Tieying, former President of CASS.

Members of Board

Honorary President

President

Acting President

General Assembly of IEAS China

The General Assembly of IEAS CHINA is the supreme decision-making body determining its future development, and also serves as a platform for consultation among academicians to push forward its overall work. The General Assembly has been held 21 times since establishment in 1996.

2 National and International Activities

Enhancing IEAS China

Election of new members of IEAS academicians is held every other year, usually in even-year. The latest election is 2020 election, 50 candidates were approved by IEAS headquarter.

The General Assembly of IEAS CHINA is held every other years, in odd-year. The latest one was held in 2019. 2021 assembly was postponed due to COVID-19.
