Una Europe for Virtual Exchange (UnaVEx) in Higher Education

UnaVEx for Sustainability is co-designing and implementing international, interdisciplinary and intercultural online bridge between European and African students for sustainability education.

UnaVEx is a 3-year ERASMUS+ project (2024–2027) funded by European Union where high education institutions from Europe and Sub-Sahara Africa from Una Europa–African partnership, co-design and implement transversal and intercultural virtual exchange, on line workshops, for every student interested in global sustainability education, without physical mobility.
